Professional Summary

Motivated and detail-oriented Computer Science student with a solid foundation in software development, machine learning, and full-stack web technologies. Experienced in applying AI and data-driven approaches to solve complex real-world challenges. Skilled in building scalable, user-centric applications and collaborating effectively in team environments. Strong problem solver with a passion for continuous learning and innovation, committed to delivering high-quality, efficient solutions that drive positive impact.

Technical Skills

Programming Languages: C, Java, Python, JavaScript, SQL

Concepts: Object-Oriented Programming (OOP)

Web Development: HTML, CSS, React, Node.js, Express

Databases: MySQL, MongoDB

Tools & Technologies: Microsoft Office Suite, Overleaf, Canva

Education

Vignan's Foundation for Science, Technology & Research *B.Tech in Computer Science (Ongoing)*
CGPA: 8.0

NRI Junior College *Intermediate (Class XII)*
Percentage: 95%

St. Ann's School (ICSE) *Class X*
Percentage: 83%

Certifications

- B1 in Preliminary English Test (PET) – Cambridge University
- Java (Basic) and Python (Basic) – HackerRank
- Python Essentials 1 & 2 – Cisco Networking Academy
- Introduction to Packet Tracer – Cisco Networking Academy
- Leadership and Team Effectiveness – NPTEL
- 50 Days Coding Badge – LeetCode (2024)

Professional Experience

Intern, Edunet Foundation (AICTE Internship) *TechSaksham - Microsoft & SAP CSR*

- Worked on AI applications including data preprocessing, model building, and evaluation.
- Developed a Personal Fitness Tracker and Diet Planner App with real-time calorie tracking and personalized suggestions.
- Gained hands-on experience in AI-powered web development and solution presentation.

Projects

Unlocking Autism DNA using Machine Learning Algorithms

- Developed predictive ML models to analyze patient data for Autism Spectrum Disorder probabilities.
- Applied feature engineering and classification to identify key early diagnosis indicators.
- Published research paper at NIT Agartala highlighting AI's role in healthcare diagnostics.

GrievEase – AI-Assisted Complaint Management Portal

- Designed and developed a full-stack complaint and feedback portal using AI tools and the MERN stack.
- Enabled anonymous complaint submission, category tracking, admin dashboard, and Excel-based faculty management.
- Implemented smooth UI/UX with real-time status tracking and secure admin operations.

Achievements

- Shortlisted – HackOn with Amazon Season 5 (2025)
- Participated in 24-hour Hackathon on MERN Stack at Vignan University
- 1st Prize – Business Ideas Presentation, Women's Day Event
- 3rd Place – 76th Independence Day Quiz Competition
- 100+ problems solved on LeetCode
